REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Note that, the Examiner's Amendment is sufficient to place the instant claims in condition for allowance.

Of the references of record, the most pertinent is JP 09-132797. '797 teaches a mold dirt cleaning agent constituent characterized by containing a complex of at least one compound chosen from the group which consists of a hydrogen peroxide, a hydrogen-peroxide addition product of an alkali metal carbonate, and fault way acid chloride and the metal and multidentate ligand. See Abstract. However, '797 does not teach a method of cleaning textiles as recited by the instant claims.

Application/Control Number: 10/052,123

Art Unit: 1751

None of the references of record, alone or in combination, teach or suggest a method of cleaning textiles using a cleaning a composition containing a transition metal complex having oxime ligands, a peroxygen compound, and the other requisite components of the composition in the specific proportions as recited by the instant claims. Accordingly, since the prior art fails to teach or suggest such a process as recited by the instant claims, the instant claims are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
